PERSONAL PROFILE

Diligent and ambitious Software Engineering Technician student with a proven record of academic excellence reflected in a high GPA. Combining a passion for technology with a background in professional mathematics education, I offer a unique blend of analytical thinking, problem-solving prowess, and effective communication skills. My experience as a proficient math teacher has honed my ability to simplify complex concepts and tailor educational approaches to diverse learning styles. This, coupled with my technical acumen and hands-on experience in software engineering, positions me as a versatile and adaptable candidate.

SUMMARY OF QUALIFICATIONS

- An astute individual who consistently meets or exceeds productivity goals
- Proven capacity to troubleshoot and resolve issues quickly
- Technical background with C#, Java, Python Oracle, HTML, CSS, JavaScript, and RESTful API.
- I have a Bachelor of Science in math education, a Diploma in video game design, and currently I am in the final semester of the Software Engineering Technician Diploma program at Centennial College.
- Coursework experience with web hosting, development, and maintenance of web pages

EDUCATION

Bachelor of Science in Math Education

Sept 9, 2005 – Aug 26, 2009

Baghdad University, Baghdad, Iraq

Courses Completed:

Topology, Functional Analysis, Complex Analysis, Statistics and Applications.

Diploma in Video Game Design

Jan 25, 2021 – Jul 25, 2022

Oxford College of Arts, Business and Technology

Courses Completed:

HTML5, JavaScript for Social Network Gaming, and Game Development Project with C++.

Diploma in Software Engineering Technician (In-progress)

Sept 4, 2022 – Present

In my final semester of the Software Engineering Technician Diploma, I've gracefully honed my skills through coursework, and navigating challenges. I excel in providing constructive feedback with empathy and professionalism, consistently achieving top grades, and reflecting my dedication to mastering essential skills for future success.

Courses Completed:

Advanced Database Concepts, Java Programming, Web Application Development, Software Systems Design, Client-Side Web Development, Web Interface Design, Software testing and quality assurance, Linux and Unix.

WORK HISTORY

Software Engineering Technician Coursework:

Sept 4, 2022 - Present

The Software Engineering Technician coursework has equipped me with a diverse skill set, including proficiency in programming languages, problem-solving abilities, and effective communication skills. This experience has shaped me into a well-rounded professional, ready to tackle challenges and contribute meaningfully to the field of software engineering.

Academic Projects:

Bean Brew Application: Developed a full-stack web application using Express, Node, EJS, and PostgreSQL, including CRUD operations and RESTful APIs.

Online Survey Application: Developed a full-stack e-commerce platform using MongoDB for database management, React for front-end, and Node.js with Express for backend operations. Integrated JWT for secure user authentication and handled the complete development cycle.

Video Game Design Coursework:

Jan 5, 2021 - July 25, 2022

Oxford College, Peterborough Campus, Canada

This experience has sharpened my technical abilities and creativity for success in game development.

High School Mathematics Teacher:

Sep 11, 2010 - Nov 25, 2014

Al Manal High School, Baghdad, Iraq

- Developed a new curriculum that combined the elements of geometry and algebra.
- Encouraged class discussion and maintained a positive learning environment.
